

229 BiFuTec JetFoamWax

High-level foam wax for self-service jet washes

- ▲ Preserves and maintains all vehicle surfaces intensively
- ▲ Achieves a good gloss finish on paintwork and plastic parts
- ▲ Impregnating effect ensuring good water and dirt repellency
- ▲ High foam volume that can be rinsed off particularly well when used in foam devices
- ▲ Particularly effective when used in a KIEHL-BiFuTec foam system or with the KIEHL-BiFuTec foam lance
- ▲ Ideal for convertible soft top canvas
- ▲ Provides a pleasant and particularly intensive fragrance experience
- ▲ Particularly environmentally aware and gentle composition
- ▲ Very economical to use thanks to the very high content of active ingredient in the high concentrate
- ▲ Free of hydrocarbons and mineral oils

Application

Product is not suitable for pre-dilution

Apply undiluted to the application with a suitable dosing device.

Wax and care:

In self-service jet washes as a foam application (20 ml/min).

Optimised for the operation with KIEHL-BiFuTec foam lances; more product is likely to be consumed when other lances are used.

In self-service jet washes as a foam application (40–60 ml/min).

Increased dosage if the application technique is not optimal. Then rinse, ideally with osmosis water.

Note

Always keep containers closed and guide suction tubes through the closure. A change in colour and clouding may occur without any loss in quality due to the natural raw materials. Protect from frost. Not a consumer product according to 1999/44/EC Art. 1! For professional use only! No liability is accepted in case of incorrect and unprofessional use!
