

Kiehl-Legno Pad

Fine dry cleaning pad

- ▲ Special cleaning pad for mechanical removal of maintenance films and superficial dirt.
- ▲ For mechanical dry cleaning of parquet surfaces

Application

The surfaces are mechanically dry cleaned with a single-disc machine with suction (150-300 rpm) underlaid with a Kiehl-Legno Pad. Move the machine in a spiral movement until the surface is evenly and completely cleaned and an even appearance has been achieved. Then remove the dust that has not been vacuumed off with wet cleaning cloths.

Technical data
