

137 KIMAX Uniwash

Gentle foaming cleaner - intense fragrant

- ▲ Quickly and reliably removes insects, fuel spillages, exhaust residues and statically adhesive dirt
- ▲ Effectively removes dissolved dirt from the vehicle surface
- ▲ Very high foam volume that collapses quickly when used in foam devices
- ▲ Creates a pleasant and intensely fragrant atmosphere at the washing bay and within the washing hall
- ▲ Offers a very good protection of the vehicle and car wash equipment
- ▲ Ensures optimum recycling water qualities and high rates of water recycling
- ▲ Reduces the sludge volume in sedimentation tanks as it supports the sedimentation of pollutants
- ▲ Aids the drying process and thus supports fast washing processes
- ▲ Environmentally aware and gentle composition
- ▲ Highly economical thanks to the very strong product concentration
- ▲ Free from EDTA, NTA and phosphates

Application

Product is suitable for pre-dilution

Apply either undiluted or prediluted to the application with a suitable dosing device. The shelf life of diluted solutions is reduced by the storage conditions and water quality. Also suitable for the use by end consumers if they have been given sufficient instructions.

Foam:

In automatic car washes as active foam (8–15 ml/car).
In automatic car washes as foam curtain (e.g. lava foam) (15–30 ml/car).
In self-service jet washes as brush foam (10–20 ml/min).

Shampoo:

In automatic car washes as brush shampoo (5–10 ml/car).

Self-service cleaner:

In low- or high-pressure systems as a spray application ($\geq 1:33$; 12–25 ml/min).

Note

Always keep containers closed and guide suction tubes through the closure. A change in colour and clouding may occur without any loss in quality due to the natural raw materials. No liability is accepted in case of incorrect and unprofessional use! Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Nonionic surfactants 5–15%, amphoteric surfactants < 5%, complexing agents, corrosion protection, dyes, fragrances (Lyril, Coumarin, Linalool, Lilial, Limonene, Alpha-Isomethyl ionone).
pH value (concentrate): approx. 10
