

# 162 Neofoam

## Powerful cleaning foam - neon yellow

- Very high cleaning performance when faced with road dirt, insects, organic contaminants and brake abrasion
- Very good at dissolving statically adhesive dirt
- ▲ Offers a very good protection of the vehicle and car wash equipment
- Very dense and fine-pored foam which adheres extremely well when used in foam devices
- Particularly effective when used in a KIEHL-BiFuTec foam system or with the KIEHL-BiFuTec foam lance
- Creates a pleasantly fragrant atmosphere at the washing bay
- Particularly environmentally aware and gentle composition
- Very economical thanks to maximised product concentration
- Free from EDTA, NTA and phosphates

### Application

Only use on alkali-resistant surfaces (e.g. undamaged, coated aluminium rims). Prior to use, see instructions provided by the material and surface manufacturer and check for material compatibility where required. Do not applicate on hot surfaces.

#### Product is suitable for pre-dilution

Apply either undiluted or prediluted to the application with a suitable dosing device. The shelf life of diluted solutions is reduced by the storage conditions and water quality. Also suitable for the use by end consumers if they have been given sufficient instructions.

#### Pre- and intensive cleaner:

In self-service jet washes as a foam application (15-25 ml/min).

Optimised for the operation with KIEHL-BiFuTec foam lances; more product is likely to be consumed when other lances are used. Then rinse thoroughly with water.

#### Note

Always keep containers closed and guide suction tubes through the closure. In case of high water temperatures (> 40 °C) and/or water hardness (> 4.5 mmol/L  $\approx$  25 °dH), adding "316 Calciel" may be sensible to avoid the formation of limescale. Do not allow the cleaning solution to dry. No liability is accepted in case of incorrect and unprofessional use! Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

#### Ingredients (according to 648/2004/EC)

Anionic surfactants 15–30%, water-soluble solvents, additives, corrosion protection, dyes, fragrances (Citral). pH value (concentrate): approx. 12.5

#### Classification

Classification (in concentrate): GHS05, GHS07, Danger. H315 Causes skin irritation. H318 Causes serious eye damage. H317 May cause an allergic skin reaction. P280 Wear protective gloves/eye protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Contains: Sodium C14-16 Olefin Sulfonate Citral (INCI)
