

200 Active Dry

Gloss drying agent - concentrate

- ▲ Quick and extensive break-up of the water film
- ▲ Excellent drying results with minimal residual water
- ▲ Achieves a water and dirt-repellent effect with a gloss finish
- ▲ Can also be used within critical fresh water quality (e.g. water hardness)
- ▲ Ideal for convertible soft top canvas
- ▲ Also effective at low temperatures and frost-proof at least to -5 °C
- ▲ Economical to use thanks to the very high content of active ingredients in the concentrate
- ▲ Free of hydrocarbons, mineral oils and fragrances

Application

Product is not suitable for pre-dilution

Apply undiluted to the application with a suitable dosing device.

Drying agent:

In car washes with blower drying as a spray application (14–20 ml/car).

Apply extensively over the vehicle.

In car washes with no blower drying as a spray application (3–6 ml/min; 1:1000-1:2000).

Apply extensively over the vehicle. As to produce a delayed break-up of the water film, it is important to use a high dilution.

Note

Always keep containers closed and guide suction tubes through the closure. A change in colour and clouding may occur without any loss in quality due to the natural raw materials. Protect from frost. Not a consumer product according to 1999/44/EC Art. 1! For professional use only! No liability is accepted in case of incorrect and unprofessional use!

Ingredients

Cationic compounds, water-soluble solvents, additives, dyes.
pH value (concentrate): approx. 5

Classification

Classification (in concentrate): GHS07, GHS09, Warning. H315 Causes skin irritation. H319 Causes serious eye irritation. H411 Toxic to aquatic life with long lasting effects. P273 Avoid release to the environment. P280 Wear protective gloves/eye protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
