

218 JetWax

Gloss preserver

- ▲ Preserves and maintains all vehicle surfaces
- ▲ Long-lasting protection against weather and environmental influences and an impressive surface gloss finish
- ▲ Impregnating effect ensuring good water and dirt repellency
- ▲ Full care effect even after the first wash
- ▲ No layer build-up and no smearing
- ▲ Very high foam potential when used in foam devices
- ▲ Can also be used within critical fresh water quality (e.g. water hardness)
- ▲ Ideal for convertible soft top canvas
- ▲ Provides a pleasant and intensive fragrance experience
- ▲ Also effective at low temperatures and frost-proof at least to -5 °C
- ▲ Economical to use thanks to the very high content of active ingredients in the concentrate
- ▲ Free of hydrocarbons and mineral oils

Application

Product is not suitable for pre-dilution

Apply undiluted to the application with a suitable dosing device.

Wax and care:

In car washes with blower drying as a foam or spray application (18–30 ml/car).

Choose the dosage depending on the desired intensity of care and foam. When using the product as a hot wax, the temperature must not exceed 60°C.

In car washes with no blower drying as a foam or spray application (3–4 ml/min; 1:2000–2500).

Apply extensively over the vehicle. As to produce a delayed break-up of the water film, it is important to use a high dilution. Then rinse, ideally with osmosis water.

Note

Always keep containers closed and guide suction tubes through the closure. A change in colour and clouding may occur without any loss in quality due to the natural raw materials. Protect from frost. Not a consumer product according to 1999/44/EC Art. 1! For professional use only! No liability is accepted in case of incorrect and unprofessional use!

Ingredients

Cationic compounds, maintenance substances, water-soluble solvents, solubilizers, dyes, fragrances (Coumarin, Benzyl Alcohol).
pH value (concentrate): approx. 4.5

Classification

Classification (in concentrate): GHS07, Warning. H315 Causes skin irritation. H319 Causes serious eye irritation. P280 Wear protective gloves/eye protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
