

221 Brill Gomma

Tyre maintenance

- ▲ Gives colour depth and produces a gloss finish on tyres and plastic parts
- ▲ Achieves a water and dirt-repellent effect
- ▲ Extremely environmentally aware and gentle composition
- ▲ Economical to use thanks to the very high content of active ingredients in the concentrate
- ▲ Free of hydrocarbons, mineral oils and fragrances

Application

Product is not suitable for pre-dilution

Use undiluted and manually.

Note

Always keep containers closed and guide suction tubes through the closure. A change in colour and clouding may occur without any loss in quality due to the natural raw materials. No liability is accepted in case of incorrect and unprofessional use! No liability is accepted in case of incorrect and unprofessional use!

Ingredients

Maintenance substances, water-soluble solvents, preservatives.
