

307 Acquabreeze

Recycling water - odor blocker

- ▲ Combats unpleasant odours due to the oxidative effect of the oxygen
- ▲ Ideal addition for an overloaded ventilation system
- ▲ Ideally suited for use in recycling water plants
- ▲ Highly efficient, followed by a lasting depot effect
- ▲ Very economical thanks to maximised product concentration
- ▲ Free from phosphates

Application

Product is not suitable for pre-dilution

Apply undiluted to the application with a suitable dosing device.

Water treatment:

In systems with water recycling as on-going treatment (10–50 ml/m³ resulting slop).

Feed the water inlet to the 1st sedimentation tank and ensure it is well-mixed. In the case of gravel filter systems, if necessary add the water inlet to the gravel filter. Optimum dosage during the last hours of operation.

Note

Always keep containers closed and guide suction tubes through the closure. Store in a cool, dark place to ensure stability. The plant manufacturer's instructions must be adhered to. No liability is accepted in case of incorrect and unprofessional use! Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients

Deodorants, inert salts, fragrances.
pH value (concentrate): approx. 12.5

Classification

Classification (in concentrate): GHS05, Danger. H318 Causes serious eye damage. P280 Wear eye protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. EUH031 Contact with acids liberates toxic gas. Contains: Sodium Chlorite (INCI)
