

425 Silodet

Strong alkaline cleaner for the inside cleaning of silo tanks

- ▲ Very good cleaning performance when used on organic residues and statically adhesive dirt
- ▲ Excellent at dissolving various product residues and all types of deposits
- ▲ Creates a foam that can be easily rinsed off when used in foam devices
- ▲ Also effective at low temperatures
- ▲ Food-safe declaration for food areas
- ▲ Very economical thanks to maximised product concentration
- ▲ Free from EDTA, NTA, phosphates and fragrances

Application

Consult the manufacturer's instructions for the devices and materials in question and test for compatibility where required. Only use on alkali-resistant surfaces (e.g. undamaged, coated aluminium rims). Apply extensively to saturate the surface.

Product is suitable for pre-dilution

Apply either undiluted or pre-diluted to the application with a suitable dosing device using a ratio of 1:2. The shelf life of diluted solutions is reduced by the storage conditions and water quality.

Note

Always keep containers closed and guide suction tubes through the closure. A change in colour and clouding may occur without any loss in quality due to the natural raw materials. In case of high water temperatures (> 40 °C) and/or water hardness (> 4.5 mmol/L ≈ 25 °dH), adding "316 Calciel" may be sensible to avoid the formation of limescale. Do not allow to dry. Rinse with plenty of water. Do not allow to dry. Rinse with plenty of water. No liability is accepted in case of incorrect and unprofessional use! Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, alkalis, complexing agents.
pH value (concentrate): > 13.5

Classification

Classification (in concentrate): GHS05, Danger. H290 May be corrosive to metals. H314 Causes severe skin burns and eye damage. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308+P313 IF exposed or concerned: Get medical advice/attention. Contains: Sodium Hydroxide (INCI)
