

CARFRESH - sensitive Mint

Perfume for vehicle interior

- ▲ Creates a pleasant and subtle yet fragrant atmosphere in vehicle interiors
- ▲ Intensity can be adjusted by altering the quantity used
- ▲ Ideal for both mechanical and manual application
- ▲ Combats unpleasant odours
- ▲ Long-lasting, subtle fragrance
- ▲ Extremely environmentally aware and gentle composition
- ▲ Pleasant, hypoallergenic and ecologically optimised fragrances
- ▲ Free from classifications

Application

Do not spray on functioning parts (e.g. pedals, displays, fittings).

Product is suitable for pre-dilution

Apply either undiluted or pre-diluted to the application with a suitable dosing device using a ratio of 1:2. The shelf life of diluted solutions is reduced by the storage conditions and water quality.

Vehicle interior fragrance:

In fragrance dosing units as a spray application (10–30 ml/car).
Spray into the footwell of the vehicle.

Note

Always keep containers closed and guide suction tubes through the closure. A change in colour and clouding may occur without any loss in quality due to the natural raw materials. No liability is accepted in case of incorrect and unprofessional use! Not a consumer product according to 1999/44/EC Art. 1! For professional use only!
