

WheelCleaner Red

Rim cleaner, pH-neutral

- ▲ Quickly and reliably removes stubborn brake abrasion and general road dirt
- ▲ Acid- and alkali-free for very gentle cleaning
- ▲ Gel formula for improved adhesion and less spray mist
- ▲ Dirt-dissolving process indicated by red colouring
- ▲ Suitable for all customary rims (e.g. steel rims and coated, undamaged aluminium rims)
- ▲ Unlike acid products, also suitable for use on ceramic brake discs
- ▲ Pleasant, intense fragrance
- ▲ Particularly environmentally aware and gentle composition
- ▲ Free from EDTA, NTA, phosphates and hydrocarbons

Application

Consult the manufacturer's instructions for the materials in question and test for compatibility in an inconspicuous spot where required. Do not apply on hot surfaces.

Rim cleaner:

Spray over the entire surface of dry rims. Leave for 3–5 minutes to take effect. If necessary, work fluid in with a cloth or non-abrasive sponge. The red colouring during the reaction time signals the dissolving process. Repeat the process for stubborn stains.

Note

Do not allow to dry. Rinse with plenty of water. Keep out of reach of children! Store in a cool, dark place to ensure stability. No liability is accepted in case of incorrect and unprofessional use!

Ingredients (according to 648/2004/EC)

Anionic surfactants < 5%, complexing agents, water-soluble solvents, solubilizers, fragrances.
pH value (concentrate): approx. 7

Classification

Classification (in concentrate): GHS07, Warning. H302 Harmful if swallowed. H317 May cause an allergic skin reaction. P102 Keep out of reach of children. P301 IF SWALLOWED: P315 Get immediate medical advice/attention. P101 If medical advice is needed, have product container or label at hand. P302+P352 IF ON SKIN: Wash with plenty of water. P305 IF IN EYES: P351 Rinse cautiously with water for several minutes. Contains: Sodiumthioglycolate (INCI)
