

# Sanikal Hygiene in sanitary rooms

- Acid and chlorine-free, slightly alkaline sanitary cleaner
- Dissolves everyday lime residues and deposits of lime soap as well as oily and greasy dirt
- A fresh and intense fragrance during use
- Treated surfaces are water and dirt-repellent
- Protects the material
- Complies with the cleaning recommendations of the fitting manufacturers
- Can also be used in a foam gun
- Does not require CLP Regulation markings
- Contains renewable plant-based raw materials

# Area of application

Can be used on water-resistant surfaces and objects in sanitary areas. Calciferous surfaces, such as marble, may take on a matt finish if product is applied to them.

# Application

Please test on a small inconspicuous spot before first application. Rinse all treated surfaces with water.

## Routine cleaning (surface cleaning):

Apply the product undiluted or with a dilution ratio of up to 20 ml to 4 L of cold water, depending on the degree of soiling. Wet the surface with the product or cleaning solution and clean with a cleaning textile. For toilet bowls and urinals, spray the undiluted product under the rim, leave it to react for a short time, clean and flush with water. Consumption: 1.0– 5.0 ml/m<sup>2</sup>.

## Routine cleaning (wiping):

Up to 40 ml to 8 L of cold water, depending on the degree of soiling. Wet the surface with cleaning solution and clean with a mop. Consumption: 1.0–3.0 ml/m<sup>2</sup>.

## Foam cleaning:

Fill the container with undiluted product. Choose a nozzle setting of 1:4 to 1:10 depending on the degree of soiling, work the foam into the surface and rinse with water after a short reaction time. Consumption: 5.0–10.0 ml/m<sup>2</sup>.
