

Santex-plus

Sanitary descaler and swimming pool detergent

- ▲ Phosphoric acid-based descaler
- ▲ Removes stubborn lime residues and lime soap
- ▲ Can also be used in a foam gun
- ▲ The use on acid-sensitive surfaces leads to irreparable material damage

Area of application

Can be used on acid and water-resistant surfaces and objects in swimming pool, sanitary and wet areas. Acid-sensitive surfaces, such as damaged chromium coatings on fittings, brass, anodised aluminium, polyamide and acid-sensitive natural and artificial stone, can be damaged by products containing acid.

Application

Please test on a small inconspicuous spot before first application. Always water joints and fittings beforehand with cold water. Treat very heavy deposits locally with undiluted product. Adjacent areas and objects must be protected. Rinse all treated surfaces with water.

Basic cleaning (removal of limescale/descaling):

Depending on the degree of soiling, 1–3 L to 8 L of cold water.

Wet the surface beforehand with water. Distribute the cleaning solution on the floor, leave to react for a short time, scrub, vacuum the dirty solution, rinse thoroughly with water. Consumption: 70.0 ml/m².

Basic cleaning (mechanical wet cleaning):

1 L to 8 L of cold water. Consumption: 2.0 ml/m².

Foam cleaning:

Fill the container with undiluted product. Choose a nozzle setting of 1:4 to 1:10 depending on the degree of soiling, work the foam into the surface and rinse with water after a short reaction time. Consumption: 50.0 ml/m².

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, inorganic acids, organic acids, water-soluble solvents, corrosion protection, dyes, fragrances (Coumarin).
pH value (concentrate): approx. 0.5
pH value (ready-to-use solution): approx. 1

Classification

Classification (in concentrate): GHS05, Danger. H318 Causes serious eye damage. H315 Causes skin irritation. P280 Wear protective gloves/eye protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308+P313 IF exposed or concerned: Get medical advice/attention. Contains: Phosphoric Acid (INCI)
