

Sanpurid-Citro Sanitary cleaner with lemon fragrance

- Fast-acting, active cleaning, acid-based sanitary routine cleaner
- Removes lime residues, limescale, urine scale and soap scum
- A fresh and intense fragrance during use
- Can also be used in a foam gun

Area of application

Can be used on acid and water-resistant surfaces and objects in sanitary areas. Acid-sensitive surfaces, such as damaged chromium coatings on fittings, brass, anodised aluminium, polyamide and acid-sensitive natural and artificial stone, can be damaged by products containing acid.

Application

Please test on a small inconspicuous spot before first application. Always water joints and fittings beforehand with cold water. Rinse all treated surfaces with water.

Routine cleaning (surface cleaning):

Apply the product undiluted or with a dilution ratio of up to 20 ml to 4 L of cold water, depending on the degree of soiling. Wet the surface with the product or cleaning solution and clean with a cleaning textile. For toilet bowls and urinals, spray the undiluted product under the rim, leave it to react for a short time, clean and flush with water. Consumption: 1.0– 5.0 ml/m².

Routine cleaning (wiping):

Up to 40 ml to 8 L of cold water, depending on the degree of soiling. Wet the surface with cleaning solution and clean with a mop. Consumption: $1.0-3.0 \text{ ml/m}^2$.

Foam cleaning:

Fill the container with undiluted product. Choose a nozzle setting of 1:4 to 1:10 depending on the degree of soiling, work the foam into the surface and rinse with water after a short reaction time. Consumption: 5.0–10.0 ml/m².

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, inorganic acids, organic acids, maintenance substances, corrosion protection, dyes, fragrances (Limonene, Hexyl Cinnamal). pH value (concentrate): approx. 0.5 pH value (ready-to-use solution): approx. 2
