

Kiehl-AciDés

Liquid acid-based disinfectant cleaner

- ▲ Ready-to-use active cleaning sanitary routine cleaner
- ▲ Tested to VAH directives and EN standards
- ▲ Very short contact time
- ▲ Fast and hygienic removal of limescale deposits, cosmetics and soap residues
- ▲ Free from aldehydes, phenols and organometallic compounds
- ▲ Minimises re-soiling from soap residue and limescale deposits

Area of application

Can be used on acid and water-resistant surfaces and objects in sanitary areas. Acid-sensitive surfaces, such as damaged chromium coatings on fittings, brass, anodised aluminium, polyamide and acid-sensitive natural and artificial stone, can be damaged by products containing acid.

Application

Please test on a small inconspicuous spot before first application. Always water joints and fittings beforehand with cold water. Remove heavy stains, such as blood or phlegm in advance.

Disinfecting cleaning:

Apply the undiluted product to the surface, leave to take effect and then clean the surface. Finally, rinse with water or wipe off. When disinfecting toilet bowls, spray the product undiluted under the rim, scrub with a toilet brush, leave for a short while to take effect and then rinse. Ensure complete coverage (e.g. 15–20 ml/m²) and adhere to the contact time (see table). Consumption: 20.0 ml/m².

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only! Use biocides safely. Always read the label and product information before use. PT 02

Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, organic acids, water-soluble solvents, biocides, fragrances.
pH value (concentrate): approx. 2.5

Active substances in 100 g:

7.0 g Lactic acid (CAS: 79-33-4), 0.6 g Didecyltrimethylammonium chloride (CAS: 7173-51-5).

Classification

Classification (in concentrate): GHS05, Danger. H314 Causes severe skin burns and eye damage. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308+P313 IF exposed or concerned: Get medical advice/attention. Contains: Lactic Acid (INCI)

Art. No.	Packaging unit (PU)	Numbers of PU per pallet
j401901	Carton of 6 x 1 L PCR bottles	84
