

Sanikal Concentrate

Hygiene in sanitary rooms

- Acid and chlorine-free, slightly alkaline sanitary cleaner
- Dissolves everyday lime residues and deposits of lime soap as well as oily and greasy dirt
- ▲ A fresh and intense fragrance during use
- Treated surfaces are water and dirt-repellent
- Protects the material
- Complies with the cleaning recommendations of the fitting manufacturers
- ▲ Contains renewable plant-based raw materials

Area of application

Can be used on water-resistant surfaces and objects in sanitary areas. Calciferous surfaces, such as marble, may take on a matt finish if product is applied to them.

Application

Please test on a small inconspicuous spot before first application. 1 dosage = 40 ml. Rinse all treated surfaces with water.

Preparing the ready-to-use solution:

Fill the 500 ml spray bottle with cold water up to the mark and add 1 dosage from the 1 L bottle of concentrate or via a Kiehl dosing system (e.g. DosiExpress). Use the 2 L container with a suitable Kiehl dosing system (e.g. DosiStation, Arcantec, DosiJet). Screw on a sprayer (aerosol-free) or spray nozzle depending on the area of application.

Routine cleaning (spray bottle, aerosol-free):

Wet the surface with ready-to-use solution and clean with a cloth or non-abrasive sponge. Consumption: 0.4 ml/m².

Routine cleaning (spray bottle):

For toilet bowls and urinals, spray the ready-to-use solution under the rim, leave it to react for a short time, clean and flush with water. Consumption: 0.4 ml/m².

Routine cleaning (wiping):

80 ml to 8 L of cold water.

Wet the surface with cleaning solution and clean with a mop. Consumption: 0.4 ml/m².

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Nonionic surfactants 5–15%, complexing agents, maintenance substances, water-soluble solvents, additives, dyes, fragrances. pH value (concentrate): approx. 9 pH value (ready-to-use solution): approx. 7.5
