

Sanikal-eco

Hygiene in sanitary rooms

- ▲ Acid and chlorine-free, slightly alkaline sanitary cleaner
- ▲ Dissolves everyday lime residues and deposits of lime soap as well as oily and greasy dirt
- ▲ A fresh and intense fragrance during use
- ▲ Treated surfaces are water and dirt-repellent
- ▲ Protects the material
- ▲ Complies with the cleaning recommendations of the fitting manufacturers
- ▲ Can also be used in a foam gun
- ▲ Does not require CLP Regulation markings
- ▲ Awarded with the European and Austrian Ecolabel
- ▲ Contains renewable plant-based raw materials

Area of application

Can be used on water-resistant surfaces and objects in sanitary areas. Calciferous surfaces, such as marble, may take on a matt finish if product is applied to them.

Application

Please test on a small inconspicuous spot before first application. Rinse all treated surfaces with water.

Normal soiling

Routine cleaning (surface cleaning):

Apply the product undiluted and clean the surface. For toilet bowls and urinals, spray the undiluted product under the rim, leave it to react for a short time, clean and flush with water. Consumption: 3.0–5.0 ml/m².

Foam cleaning:

Fill the container with undiluted product. Choose a nozzle setting of 1:4 to 1:10 depending on the degree of soiling, work the foam into the surface and rinse with water after a short reaction time. Consumption: 5.0–10.0 ml/m².

Light soiling

Routine cleaning (surface cleaning):

Apply the product with a dilution ratio of up to 40 ml to 8 L of cold water. Soak a cleaning textile with cleaning solution and clean the surface. Consumption: 1.0–3.0 ml/m².

Routine cleaning (wiping):

Apply the product with a dilution ratio of up to 40 ml to 8 L of cold water. Soak a cleaning textile with cleaning solution and clean the surface. Consumption: 1.0–3.0 ml/m².

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only! Proper dosage saves costs and minimises environmental impacts. Surfactants based on vegetable raw materials. Packaging material is recyclable.

Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, anionic surfactants < 5%, maintenance substances, water-soluble solvents, additives, dyes, fragrances.
pH value (concentrate): approx. 9 pH value (ready-to-use solution): approx. 7
