

ARCANDIS-Powder

Powdered dishwasher detergent for dishwashers

- ▲ Dishwasher powder for all domestic and semi-commercial dishwashers
- ▲ Fast and thorough removal of food residue, as well as tea and coffee remnants
- ▲ Hygienic washing results with a great shine
- ▲ Glass corrosion protection
- ▲ Free from chlorine and phosphate

Area of application

For all types of alkali-resistant items made of porcelain, glass, stainless steel and plastic. Crystal glass, hand-painted porcelain, aluminium pots and pans and cutlery with wooden handles should ideally be washed by hand. Do not use to clean items made of aluminium and silver.

Application

Please test on a small inconspicuous spot before first application. Consult the manufacturer's instruction manual.

Mechanical dish washing:

Wash away loose dirt before loading the machine. Use the dosage tool to add 18 g of powder into the dishwasher's dosage chamber or washing tank. In the case of extreme soiling, add an additional 18 g of powder to the washing tank. Then select the programme and start the machine.

Consumption depends on the specific conditions and specifications.

Ensure an optimum cleaning result by combining with ARCANDIS-Splend or ARCANDIS-Salt Granulate. Regularly check the filter for cleanliness. Refill the softening salt and rinse aid at regular intervals and adjust the dosage in line with the local water hardness as described in the instruction manual.

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product.

Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, phosphonates < 5%, polycarboxylates < 5%, oxygen-based bleaching agents 5–15%, enzymes (Protease, Amylase). pH (1:100): 11
