

ARCANDIS-Shine

Neutral rinse aid

- ▲ Highly concentrated, neutral rinse aid for commercial dishwashers
- ▲ Fast, streak-free and mark-free drying
- ▲ Low-foaming, thus produces little foam even in large concentrations
- ▲ For spotless dishes with shine

Area of application

For all types of alkali-resistant items made of porcelain, glass, stainless steel and plastic.

Application

Please test on a small inconspicuous spot before first application.

Mechanical dish washing:

Recommended dosage

Recommended dosage for dishwashers	
Hardness level 1 (< 1.5 mmol/L)	0.2 g/L of water
Hardness level 2 (1.5–2.5 mmol/L)	0.35 g/L of water
Hardness level 3 (> 2.5 mmol/L)	0.5 g/L of water

The dosage values lie between 0.2–0.5 g/L of water.

Dosage takes place using the machine's integrated dosage mechanism or with the programmable KIEHL dosage devices. In order to achieve the best possible drying result, the dosage is set by a KIEHL service technician based on specific conditions (water hardness, level of soiling, type of machine). Consumption: no indication possible. Consumption depends on the specific conditions and specifications.

Ensure an optimum cleaning result by combining with ARCANDIS-Eco or ARCANDIS-Classic.

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Nonionic surfactants 5–15%, solubilizers, food-dye, preservatives (Benz-, Methylisothiazolinone).

pH value (concentrate): approx. 7

pH value (ready-to-use solution): approx. 7

Art. No.	Packaging unit (PU)	Numbers of PU per pallet
j561610	10 L canister	60
j561621	20 L canister	36
j561672	200 L drum	2
