

Defoamer

For foam reduction in dirty water tanks

- ▲ Anti-foaming concentrate resistant to cold and hot water
- ▲ Prevents excessive foaming in cleaning machines

Area of application

For the defoaming of dirty solution in wet vacuum cleaners, scrubber dryers and spray extraction machines.

Application

Please test on a small inconspicuous spot before first application. Shake well before use.

Defoam:

Turn the vacuum on and spray a few squirts into the suction hose. For large scrubber dryers, add 100–200 ml diluted with 1–2 L of water into the dirty water tank, depending on the dirty water tank volume. Consumption: no indication possible.

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Aqueous antifoam emulsion, preservatives (Benzisothiazolinone).
pH value (concentrate): approx. 11
