

ARENAS-formacid

Liquid neutraliser

- ▲ Neutralises residual alkalinity and carbonate level in the final rinse cycle
- ▲ Reduces rinse times and water consumption
- ▲ Prevents the yellowing of laundry during mangling
- ▲ Prevents limescale deposits
- ▲ Can be used with soft and hard water

Area of application

For neutralisation during the final rinse cycle. Suitable for cotton and mixed fabrics.

Application

Dosage 0.01–0.1 %.

Attach the canister to the pump connection for the neutraliser. Dosage takes place automatically through the washing machine's program control. In order to achieve the best possible cleaning result, the dosage is set by a KIEHL service technician based on specific conditions (water hardness, level of soiling, type of machine).

The amount required depends on the residual alkalinity, the water hardness and the chosen liquor ratio.

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Organic acids.

pH value (concentrate): < 0.5

pH value (ready-to-use solution): approx. 3

Classification

Classification (in concentrate): GHS05, GHS07, Danger. H302+H332 Harmful if swallowed or if inhaled. H314 Causes severe skin burns and eye damage. P280 Wear protective gloves/protective clothing/eye protection/face protection. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308+P313 IF exposed or concerned: Get medical advice/attention. EUH071 Corrosive to the respiratory tract. Contains: Formic Acid (INCI)
